PROFILE

I am in my fourth year of architecture at ETSAV (UPC). I move between drawing, physical models and the building site: I have spent time working on site and on the production side of a construction company. What interests me is working with what is already there, from the historic centres of medium sized cities to reclaimed objects, with reuse as the starting point.

EXPERIENCE

Production Intern · Egon Haus (construction company) · May to July 2026

In charge of the production side and introduced AI assisted workflows within a real, everyday work environment.

Research Intern · UPC, La Salle URL · Jan 2025 to Jan 2026

Member of the research team that won the Generalitat de Catalunya competition on the abandonment of historic centres in medium sized Catalan cities: diagnosis of Ripoll, Valls, Tortosa, Berga and Balaguer, and a pilot adaptive reuse project for Balaguer's historic centre.

Sales Associate (part time) · Bosch i Casals · Sep 2024 to Present

Persuasive communication and commercial awareness through direct to consumer sales.

Front Desk Client Services · West Glacier RV, Montana, USA · Summer 2024

Client relations and English fluency in a fast paced American work environment.

Construction Labourer · COSAFEL 2017 SL · Summers 2022 & 2023

On site knowledge of materials and building processes, translating architectural drawings into built work.

EDUCATION

Degree in Architecture Studies (GEArch) · ETSAV, UPC · 2023 to Present

Fourth year, average mark 8.1/10

SKILLS

Modeling & CAD	Rhinoceros, AutoCAD, Revit
Graphics & Layout	Illustrator, Photoshop, InDesign, Affinity
Computational & GIS	Grasshopper, QGIS, Python
AI in everyday work	Claude Code

LANGUAGES

Catalan and Spanish (native) · English (proficient)
